PROFESSIONAL SUMMARY

Results-oriented .NET Developer with 4 years of experience designing, developing, and supporting enterprise web applications and RESTful APIs. Skilled in C#, ASP.NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework Core, ADO.NET, and SQL Server. Experienced in responsive UI development, production-defect resolution, Agile delivery, and cross-functional collaboration.

TECHNICAL SKILLS

Languages: C#, JavaScript, SQL

Backend: .NET, ASP.NET Core, ASP.NET MVC, ASP.NET Web API, RESTful APIs, Entity Framework Core, ADO.NET

Frontend: React, HTML5, CSS3, Bootstrap, JavaScript, jQuery

Databases: Microsoft SQL Server, SQL Server Management Studio (SSMS)

Cloud & DevOps: Microsoft Azure, Azure DevOps, GitHub Actions, CI/CD

Tools: Visual Studio, Visual Studio Code, Git, GitHub, Swagger

PROFESSIONAL EXPERIENCE

.NET Developer | First American India Pvt. Ltd.

Professional experience: 4 years

- Developed and maintained enterprise applications and RESTful APIs for TRD, TRDAPI, UMP, and INDEXSTUDIO using C#, ASP.NET Core, ASP.NET MVC, Entity Framework Core, ADO.NET, and SQL Server.
- Designed, implemented, and validated RESTful API endpoints using ASP.NET Core Web API and Swagger for document-management workflows.
- Delivered UI enhancements using ASP.NET MVC, React, HTML, CSS, JavaScript, jQuery, and Bootstrap.
- Implemented authentication and authorization features to support secure access across enterprise web and Windows applications.
- Performed sanity testing for TRD projects and supported production deployments.
- Developed database components and data-access logic using SQL Server, Entity Framework Core, and ADO.NET.
- Delivered user stories and resolved production defects in Agile sprints with QA engineers, database teams, and product owners.
- Redesigned the UMP application using ASP.NET Core MVC and Bootstrap to improve maintainability and user experience.
- Enhanced the DTS2 Windows application to support application-version updates through Control Panel, scheduled updates, and update checks after system restart or reboot.
- Developed an internal application to download documents from Azure Blob Storage and deployed it through GitHub Actions.

SELECTED PROJECT

Employee Management System

Technologies: React, ASP.NET Core Web API, Entity Framework Core, SQL Server, Swagger, Azure, GitHub Actions

- Developed an employee-management web application with secure login, dashboard, and CRUD functionality for employee records.
- Implemented search, sorting, pagination, input validation, session timeout, and database logging for user activity.
- Integrated a React frontend with ASP.NET Core Web APIs and SQL Server using Entity Framework Core.
- Tested and documented API endpoints using Swagger.
- Created a CI/CD deployment workflow using GitHub Actions and deployed the application to Microsoft Azure.

EDUCATION

B.Tech — QIS College of Engineering & Technology | 8.5 CGPA | 2022

Intermediate — Sadhana Jr. College | 85% | 2018

SSC — ZP High School | 8.7 CGPA | 2016

CERTIFICATIONS & TRAINING

- Azure DevOps and GitHub Actions — LinkedIn Learning
- React — LinkedIn Learning
- Training in Microservices, CI/CD, Docker, Kubernetes, and Microsoft Azure
- Google Cloud Platform (GCP) Fundamentals — Google Cloud Skills Boost (in progress)
